1. INSPIRE PUBLIC WEBISTE

Starting from November 2020 an official public website for the project INSPIRE is active. The website can be reached at the following URL:

www.inspire-etn.eu

The website is hosted and maintained on CERFACS servers (inspire.cerfacs.fr).

A snapshot of the home page of the website is shown in Figure 1.

Figure 1 – Snapshot of the home page of INSPIRE public website.

The Website is linked to a database where all the Open Access publications produced during project execution will be stored. Links to public repositories and DOI for each paper will also be reported.

Section “PhD project” of the website is currently reporting a description of each ESR. Once the recruitment process will be completed the section will report a resume of each selected PhD candidate. Each ESR page will be updated by PhD candidate with her/his progresses in the project.
